

MAKE IT POSSIBLE

Dear Customer

Corrugated paper price increases have been announced and put in place on all CCM grades effective from the middle of March 2010.

The background to the paper price increases relate to the continued escalation in raw material input and transport costs. In addition the demand for all CCM grades remains strong and as a result of these factors the paper producers have decided to raise their prices.

These paper price increases together with the ongoing upward pressure in input costs have a significant impact on our business which we are unfortunately not in a position to absorb.

We will be increasing our sheet board prices by 12% for all deliveries with effect from the 22nd March 2010.

We do appreciate your business and our thanks for your continued support.

Yours sincerely,

A handwritten signature in black ink, appearing to read "RW McBride", written over a light blue horizontal line.
