10th February 2011

Dear John,

Over the recent months we have been confronted with a significant increase in our basic chemicals used to produce polyurethane foams. At the same time manufacturing costs and freight charges have also risen.

This price increase situation is going to continue for the coming months.

We therefore need to raise our sales prices by 9% for all deliveries from Monday the 21st February 2011.

We appreciate your understanding in this difficult period.

Should you have any questions, please do not hesitate to contact your Carpenter account manager.

Yours sincerely,

Sales Manager
