Dear John ,

I wrote to you recently regarding the upward spiral of our costs through the second half of 2009 and the first two months of 2010. There was a general feeling that these may have eased by now but, as I am sure you are aware, this is not the case and, following meetings this week with our suppliers, further increases are in the pipeline.

We are not in a position to absorb any more of these increased costs so therefore, with effect on orders received from 12th of April 2010; our products will increase by the following percentages.

Air Cellular	10%
Cell-Aire®	10 %
Mail Lite® Mailing products	6 %
Fill Air™ Films	6 %

These percentages also refer to all converted products.

As always, your local Sealed Air Regional Sales Manager will be in contact in the next few days and will support you fully throughout the increase process.

Assuring you of our best attention at all times.

Yours sincerely
