HP12 3BG

Dear Mr Williams

I am sure you are aware of the extraordinary circumstances determining increasing costs in the UK. Steeply rising prices on resin in Europe, coupled with exchange rate rises and fuel and utility increases have meant that our overall costs have risen sharply over the last few months and all indications are that these will continue.

Sealed Air has been absorbing these increases as much as possible but, unfortunately, we now have no option but to pass these increases on.

Therefore, with effect on deliveries from 3rd of March 2008, our products will increase by the following percentages.

Air Cellular	9 %
Cell-Aire®	6 %
Fill Air™ Films	5 %

These percentages also refer to all converted products.

As described, these are extraordinary circumstances, and should the situation improve we will, of course react. In the meantime, your local Sealed Air Regional Sales Manager will be in contact in the next few days and will support you fully throughout the increase process.

Assuring you of our best attention at all times.

Yours sincerely

A handwritten signature in blue ink, appearing to read "P.P. Simm".
