8th April 2010

Dear John,

Due to the continuous price increases of Polyol and T.D.I. which have reached a double figure % from March to April 2010, we find it necessary to increase slabstock prices.

At the present time, we are again, experiencing problems in obtaining our full requirement of the above raw materials, as they are on restricted allocation from our suppliers, forcing us to obtain chemicals where we can, but at higher cost.

The amount required to cover these increases is 9%, to take effect from Monday the 19th April 2010. We regret that we are unable to give the usual notice period due to the magnitude of the cost increases which have already been applied to us. Therefore, we have no alternative but to pass them on as quickly as possible. It is also likely that there will be further increases in future months.

Thank you for your understanding during this difficult situation, your account manager will contact you in the near future with details of your revised prices.

Regards.

Your sincerely,

CARPENTER LTD
