Hi John

Sadly yet a further 5% on block (6% on VC50 & VC60 but you don't use these grades) 3.5% on converted items

Kind Regards

Danny Nunn

Danny

What Percentage price increase have you applied this time ?

Regards

John

Subject: Prices

Dear John

Further to our recent telephone conversations, we are writing to inform you that we continue to be subjected to raw material price increases from our major suppliers. We have again seen, from the start of April, increases applied to all the major constituent parts required for our foam manufacturing processes and we cannot simply absorb these cost increases. Regrettably, we must therefore confirm a further increase in the price of the products we supply to you. Further, the raw materials continue to be on allocation to us and we have no choice but to continue with our allocation programme to all our customers until such time that the situation improves. We shall review these regularly & inform you of any increase in supply we can offer as soon as possible.

Please find attached your new revised price list effective from today Monday 3rd May 2021. We can only apologise for the issues this causes your business and assure you, our teams across our business continue to work hard at exploring any improvements which can be realised in relation to supply capacity and mitigating cost increases where possible.

Kind Regards

Danny Nunn
