Subject: Price Update

Dear Steven, James,

As you are aware, the situation in the Middle East continues to cause significant disruption. Despite our hopes that conditions would improve, we unfortunately have no option but to respond to the ongoing challenges.

Therefore, following on from our earlier communication, it has now been confirmed that the impact of chemical cost increases on our UK pricing will be 22%.

These revised prices will be implemented from 17th April. Your invoice prices will be amended to reflect the change from this date and will be applied based on the date of delivery. An updated price list is attached

We fully recognise the challenges that these changes may present and want to assure you that this decision has not been taken lightly. We greatly value our partnership and sincerely appreciate your patience and understanding during this period. Should you have any questions or wish to discuss the impact in more detail, please do not hesitate to contact us.

Best regards
