Dear John

We hope you are safe and well.

Over the past few months we have been faced with rapidly increasing prices on our key raw materials, cartons, power and transport. These combined account for over a 16% increase in the base cost of our foam products.

As a result of the above we have no option but to increase our prices by 8% and in some cases our Minimum Order Quantities to ensure we can continue to offer quality UK produced products with the expected level of service. The increase will apply on all orders delivered on or after 1st April 2021.

We have worked hard to keep any increases to a minimum and hope not to raise this topic again for at least the remainder of 2021. We look forward to continuing working with you in the coming months and years.

Stay safe.

Yours sincerely
nmc (UK) Ltd

Maria Davies
